P.O. Box 1450

Sir:

In an Office Action dated April 22, 2005, the Examiner argued that this application includes two separate groups of claims, and required that the application be restricted to claims directed to one of these two groups.

CERTIFICATION OF FACSIMILE TRANSMISSION

I hereby certify that this paper is being facsimile transmitted to the Patent and Trademark Office on the date shown below.

Dated: May 23, 2005

G:\bm\105\16832\amend\16832.am1.doc

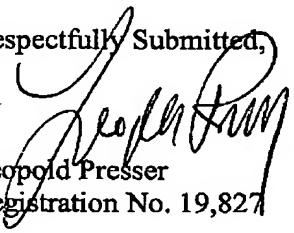

- I. Claims 1-14, drawn to a system for predicting future values of a target metric associated with a task executed on a computer system.
- II. Claims 15-24, drawn to an apparatus for periodically reconfiguring an adaptive computer system based on future behavior predictions.

Specifically, the Examiner required that the application be restricted either to Claims 1-14, which are drawn to a system for predicting future values of a target metric, or to Claims 15-24, which are drawn to an apparatus for periodically reconfiguring an adaptive computer system based on future behavior predictions. The Examiner argued that these two groups of claims are unrelated to each other.

Applicants hereby elect Claims 1-14 for prosecution in this case. Applicants expressly reserve the right to file a divisional application for Claims 15-24.

If the Examiner has any questions about this matter, the Examiner is asked to telephone the undersigned.

Respectfully Submitted,

Leopold Presser
